JENSEN HUGHES

Advancing the Science of Safety

JENSEN HUGHES is the global leader in engineering consulting services for the built environment. We are a company of engineers, consultants, and scientists focused on evaluating risk, and developing the best and most cost effective solutions. We have extensive, practical experience from countless projects, research, and industry innovation.

We offer a full range of construction claim and advisory services customized to meet the needs of each individual project for developers, owners, contractors and municipalities. Our Construction Claims consulting services provide objective and unbiased opinions in a clear manner.

We are objective, unbiased, and meticulous.

25% of Construction Projects across North America are affected by disruption, delay or defects

There are many complex factors that can hinder the success of a project. These challenges can result in inflated budgets or extended schedules, which often become the basis of construction disputes.

Quantifying damages and assigning responsibility requires an in-depth and objective assessment of the many varied and often connected details that can impact a project.

At JENSEN HUGHES, we have the unique ability to capture the complete story of events, becoming familiar with the distinctive elements of each project. There is no standard formula - every project requires a specific, tailored approach.

The experts at JENSEN HUGHES believe in early prevention or risk reduction. Regardless of the project lifecycle challenges, JENSEN HUGHES can assist from beginning to end.

Transit Maintenance Facilities

Construction Claims & Dispute Resolution

When disputes or challenges arise on a project, our clients rely on our objective technical analysis of schedule and cost issues, in-depth knowledge of industry standards of practice, and litigation support services. We focus on clear identification of root causes of change, delay, acceleration, disruption and other unforeseen events. Next steps include assigning responsibility and quantifying fiscal damages. Our involvement enhances our clients' decision-making capabilities, and can significantly reduce their financial risk and exposure.

Project Advisory

Our experienced team at JENSEN HUGHES provides a full range of project risk management, planning and cost estimating services. These enable our clients to increase their control of projects, address issues as they arise, and help discover hidden opportunities. During the course of a project, our services can help clients maintain project momentum, administer project controls, and tackle any obstacle from an insightful and objective perspective.

Our Mission

With an emphasis on value, JENSEN HUGHES Construction Claims and Advisory Services provides iron clad, clear, innovative, and objective advice on commercial elements of construction and technical challenges.
